

# COURTYARD BY MARRIOTT MINNEAPOLIS MAPLE GROVE

ARBOR LAKES – MAPLE GROVE, MN

This four-story 115-unit hotel is located in the entertainment district.

A unique feature is a “wedge” that dissects the entire building extending out each side. The canopy was designed nonlinearly to enhance the exterior.

The building was constructed with hollowcore planks supported with a mixture of masonry bearing walls and structural steel frames.

**Project Size:** 115 Units

**Completion Date:** 2007

**Project Cost:** \$12 Million
