

SUDRO HALL - ALDEVRON TOWER NORTH DAKOTA STATE UNIVERSITY

FARGO, ND

To meet increasing critical workforce shortages and accreditation requirements, as well as pursue advanced teaching methods, the School of Pharmacy and Nursing, Allied Science, and Public Health undertook a much-needed renovation and new addition.

The new expansion and renovation learning spaces, while focusing on the ability of students, staff, and faculty to create a collaborative, career-focused, state-of-the-art learning environments, were designed to offer integrated, team-based collaborations among the various disciplines.

With focus on the College's commitment to an inter-professional education model — a team-based, experiential approach to patient-centered care — students are able to take advantage of cutting-edge innovative and technology capable of simulating real-world healthcare settings.

In order for the new expansion to blend in, a small courtyard was centered between the two buildings. This area creates a seamless transition and provides a space for students to relax, meet, and share ideas and theories.

Project Size: 69,500 SF

Completion Date: 2018
