

# TUFFY'S PET FOODS MILLING PLANT EXPANSION

PERHAM, MN

The project included a multi-floored tower that housed milling and grain storage and conveyance equipment.

The basement of the tower, which included weighing and mixing equipment, was 32' below grade.

The unloading bay area on the northeast section of the project added a bay to the existing unloading structure along with multiple levels for testing and conveyance equipment.

**Project Size:** 175' Tall Milling Tower Structure with a 74'x74' Footprint with Numerous Mezzanine Levels. Unloading Bay with a 10,000 SF Footprint with many mezzanine levels.

**Project Cost:** \$50 Million

**Completion Date:** 2018

**Similar Projects:** TBA
